## Deep Pitch Blade

Moves a greater air volume  
at a higher speed

## Special Front Grid

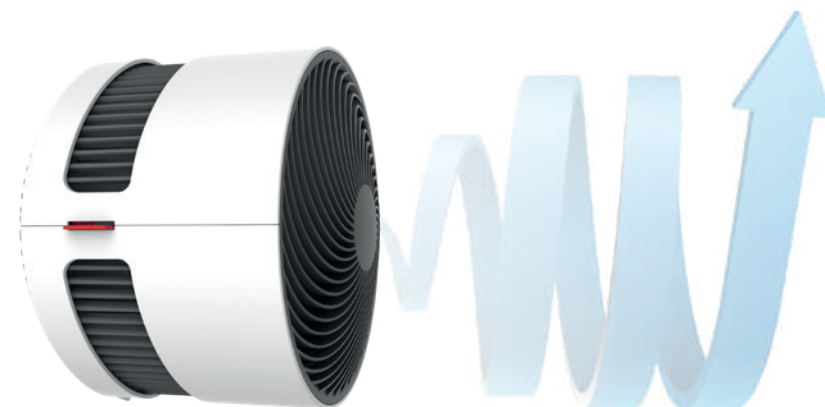

Accelerates air speed and  
provides protection

=

## Superb air circulation

Recirculates the air in the  
room within a few minutes

»Range / Airflow speed«

»Normal Fan«

»BONECO Fan«

### **BONECO Fans can achieve superb air circulation**

It takes only a few minutes to get an unified room climate

### **BONECO Fans can help to save overall energy costs**

Because of the efficiency in air circulation, BONECO Fans can help to save up to 10% overall energy costs (depends on regions) when positioned correctly.

### **BONECO Fans are your best year round companion for all other interior climate products**

Air Conditioners, Electric Heaters, Radiators, Humidifiers, Air Purifiers, even Aroma Diffusers... BONECO Fans can help to achieve the best performances of all these climate products by providing superb air circulation.

everywhere**

**Save energy costs**

Rooms with  
high ceilings

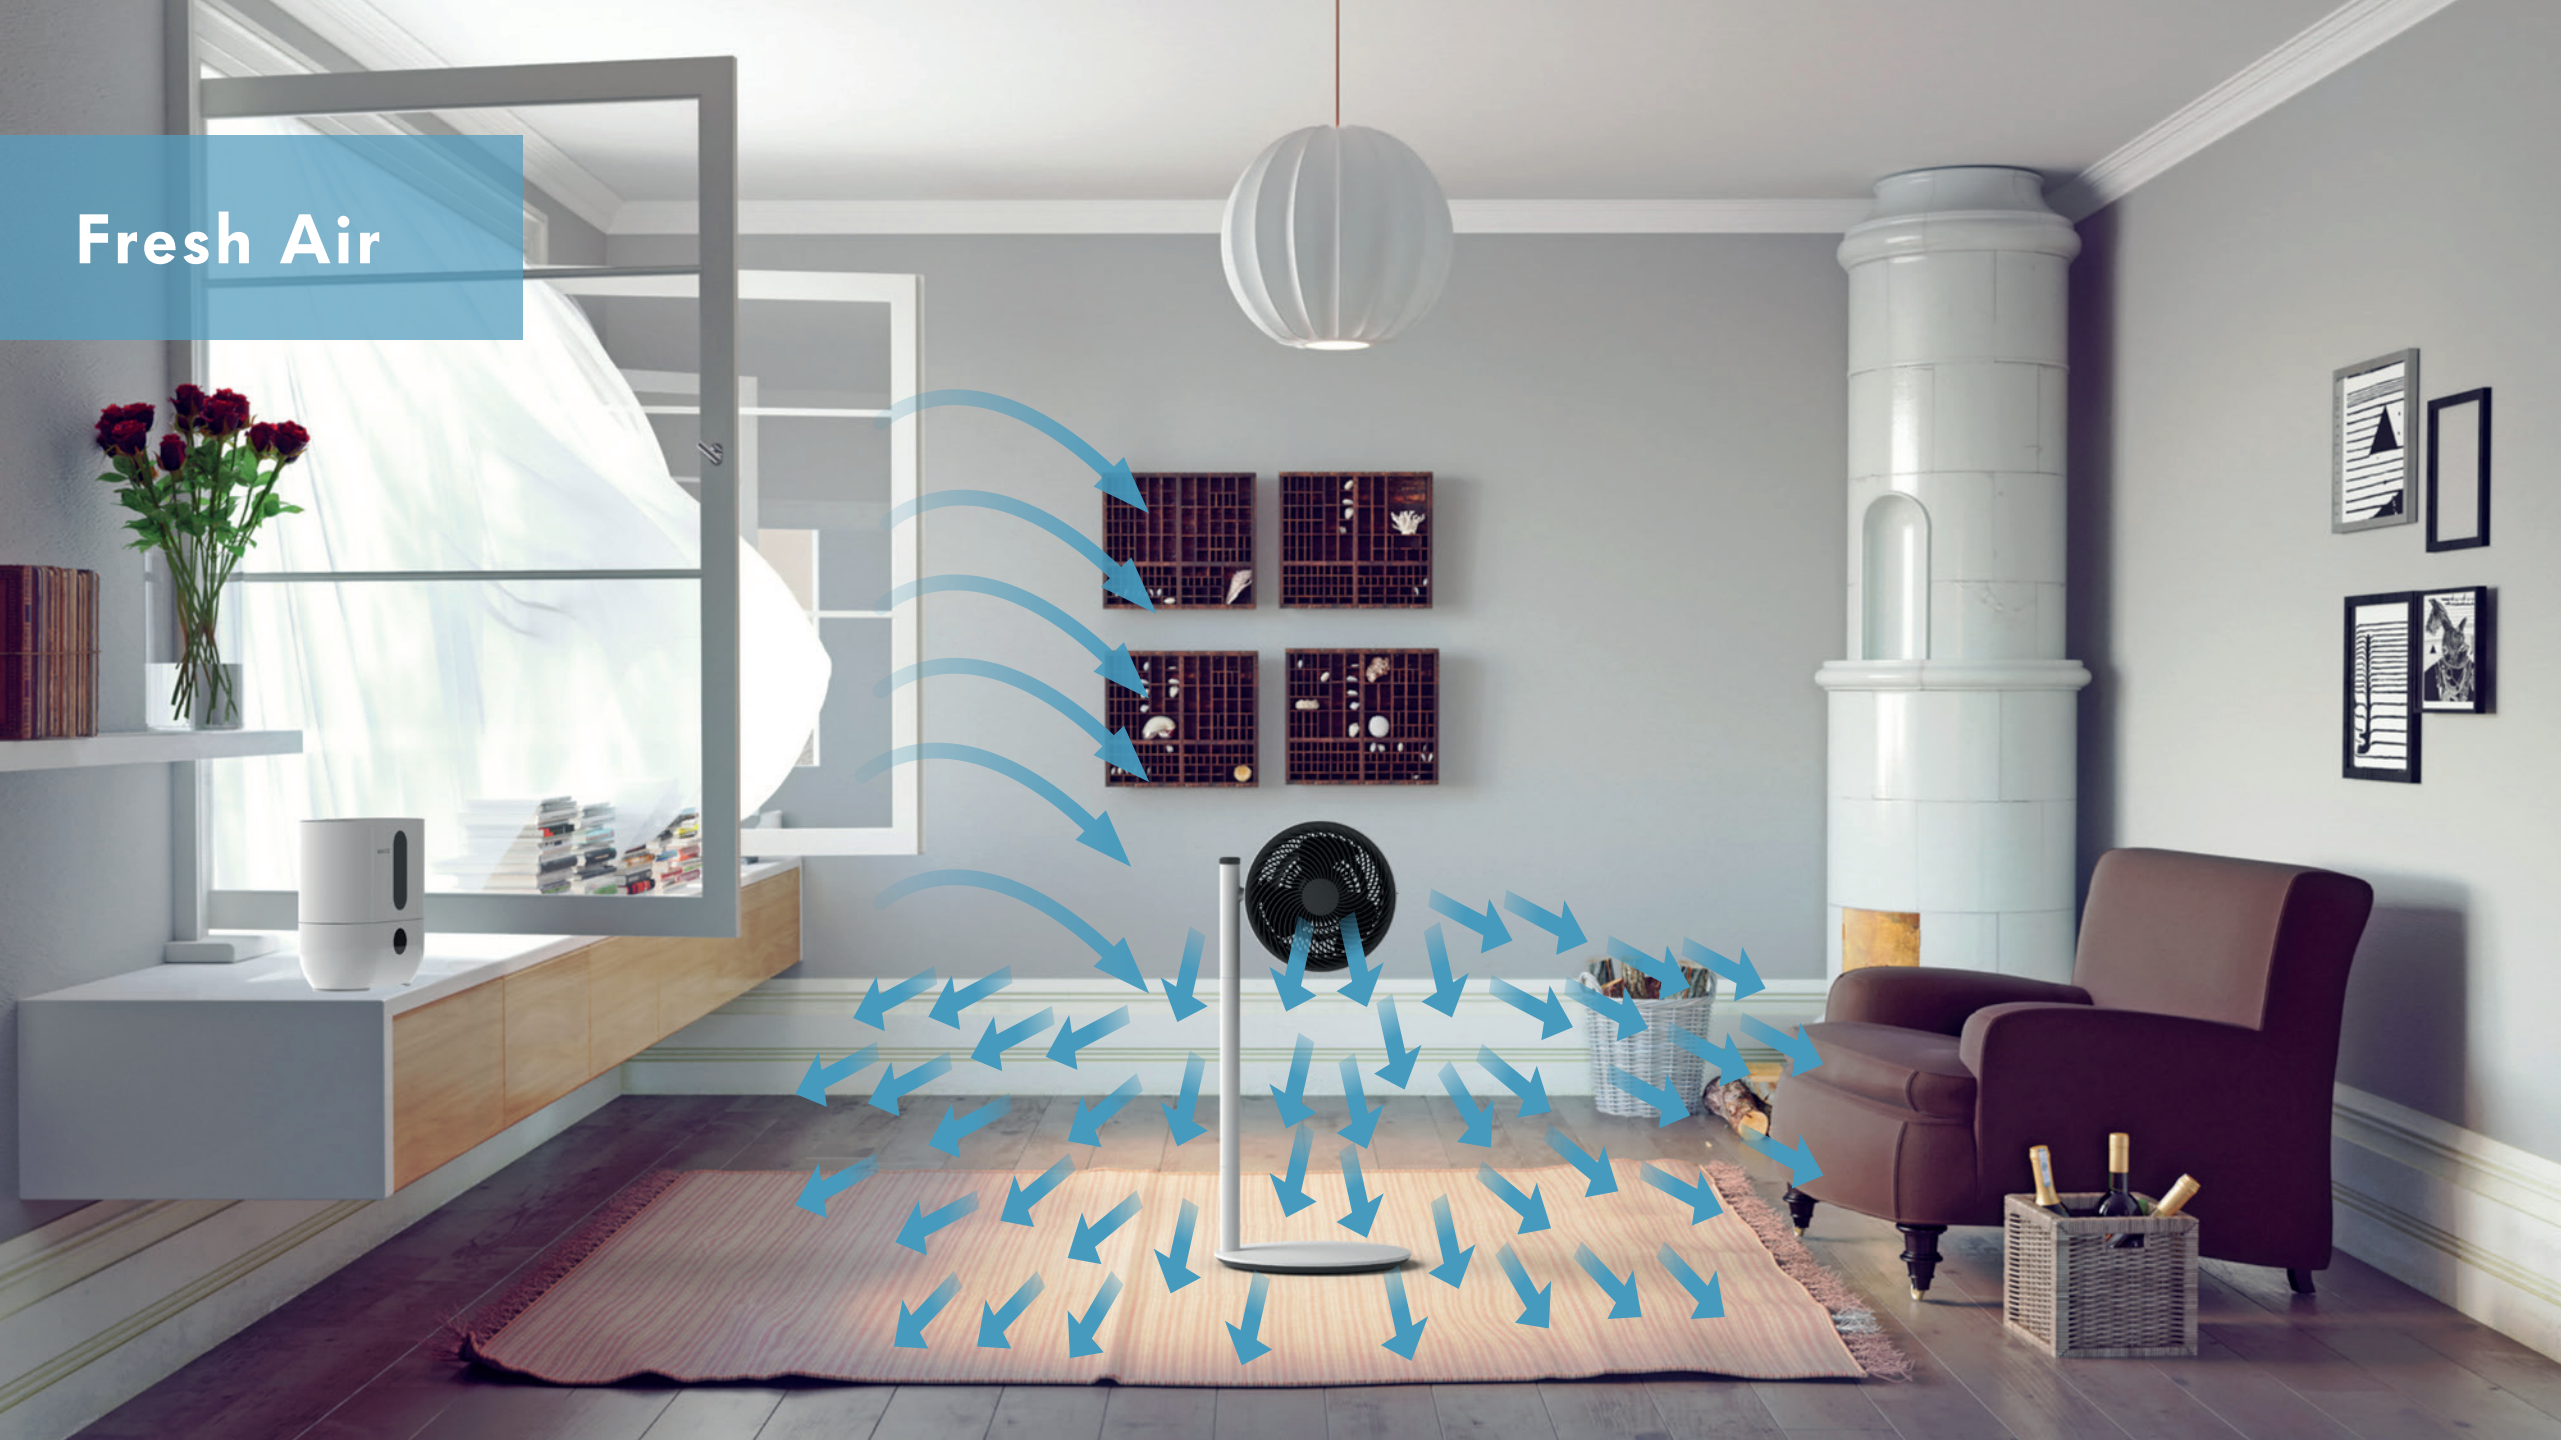

## Multiple floors

Fresh Air

With air  
conditioning System

## Your private breeze companion wherever you are

- USB C connector, can be used everywhere
- Touch Control, simple, easy and modern
- Life time: over 20k hours
- Very low energy consumption: < 2 W
- 2 speed levels
- Compact in size (LxWxH): 87 x 104 x 120 mm
- Fan blade size: Ø 82 mm
- Quiet in operation: < 35 dB(A) (Level I)
- Air speed: > 110 m/min

F50

## Slim and powerful Air Shower Fan

- Signature natural Air Shower feeling for superior air circulation
- Unique, modern state of art design
- Year round usage, companion with other household air conditioning appliances
- 3 speed levels with LED indicators
- Product size (LxWxH): 172 x 207 x 238 mm
- Fan blade size: Ø 150mm
- Low energy consumption: < 20W
- Air speed: > 240 m/min
- Airflow: 12 m<sup>3</sup>/min

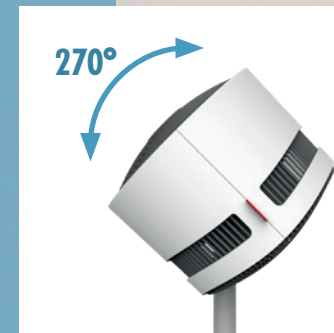

F100

## Slim and powerful Air Shower Fan

- Signature natural Air Shower feeling for superior air circulation
- Unique, modern state of art design
- Year round usage, companion with other household air conditioning appliances
- 3 speed level controls at the rotation knob
- Product size (LxWxH): 202 x 207 x 540 mm
- Fan blade size: Ø 150 mm
- Low energy consumption: < 20W
- Air speed: > 240 m/min
- Airflow: 12 m<sup>3</sup>/min

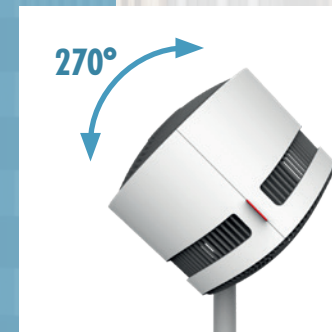

F120

## Unique asymmetrical single-arm designed Air Shower Fan

- Stylish, unique and innovative single-arm design
- Signature natural Air Shower feeling for superior air circulation
- 270 degree manually rotatable airflow
- Year round usage, companion with other household climate appliances
- Single rotational knob control to 4 speed levels
- Product size (LxWxH): 375 x 375 x 403 mm
- Fan blade size: Ø 225mm
- Energy consumption: < 41 W
- Maximum operation noise level: < 60 dB(A)
- Air speed: > 290 m/min
- Airflow: 26 m<sup>3</sup>/min
